

# Tax Calculators

## Tax Credits Calculator

Do you advise your clients about Tax Credits?

Some of your clients may be entitled to the benefit of tax credits and with the new £50,000 AIA even more may suddenly find themselves entitled to claim. But you need to be proactive and plan! The updated **2020 Tax Credits Calculators** comprise two Excel tools:

- 2008/09 Actual v Provisional Calculator
- 2009/10 Provisional Claim Calculator

These tools have been developed in order to take into account complex scenarios and changes in circumstances that affect tax credits throughout the year.

## Should I Incorporate? Calculator

Have you advised your clients about Incorporation?

To make it easy for you to advise clients, we are pleased to announce the updated **2020 Should I Incorporate? Calculator**.

Key features of the calculator are:

- 2009/10 tax and NI rates
- 2010/11 - 2011/12 tax and NI rates

(based on known proposals - deals with restriction of personal allowances dependent on income, new higher rate tax bands in 2010/11 and 2011/12, increases to NI contributions in 2011/12 etc)

*“Given the exceptional value of this product..... I recommend these tools as a cost-effective option when advising on the ‘why incorporate?’ issue.”*

Mark Lee FCA - Past Chairman of the ICAEW's Tax Faculty

## Disincorporation Calculator

As tax bands converge and NI bands increase, the savings are becoming less and many businesses may now find it more advantageous to disincorporate and revert to a Sole Trader or Partnership. Use the **Disincorporation Calculator** to assess the costs of disincorporation and any savings.

(Requires Should I Incorporate? to calculate some of the figures).

Purchase all 3 products for only £210 plus VAT. Fully updated from the 2009 budget

# Tax Calculators

Your Tax Credits Calculator, Should I Incorporate? Calculator and Disincorporation Calculator will be emailed to you. Please ensure you provide an email address.
